## Profile

I am a freelance developer with passion for creating new experiences. I have worked on multiple released games and apps on various platforms.

My strongest forte is Unity and using it to create great mobile experiences.

I like: Trying to solve things, finding new opportunities, reading, gaming and watching my favorite shows while munching chocolate.

---

## Technical Skills

- Unity3D
  - MySQL
  - C#, .NET, PHP, JS
- 

## Other
